

Community Meeting to Develop a Clean Up Plan for the Powell River and Tributaries Watershed

A Total Maximum Daily Load (TMDL) Implementation Plan for the Powell River watershed is being developed to restore water quality due to high levels of bacteria and sediment

DEQ is seeking input from watershed residents to address the best way to restore water quality in the area. Please join us for an informational meeting to offer your input and learn more about water quality in the Powell River watershed!

Due to the large geographic area, choose the meeting location that's most convenient for you:

April 11, 2017 • 6:00-8:00 pm

Pennington Gap Community Center
[41670 West Morgan Ave](#)
[Pennington Gap, VA 24277](#)

April 13, 2017 • 6:00-8:00 pm

Big Stone Gap Town Hall Gymnasium
[505 East 5th St South](#)
[Big Stone Gap, VA 24219](#)
